YCC Notations:

1. Freight shipments requiring liftgate service or open top/flat bed truck are NOT standard freight. These services are available at extra cost, which must be included at time of order entry. Consult YCC for special pricing. Reconsignment fees and liftgate service fees will be applied if this is done after carrier pick-up at YCC. Refer to price book page viii "Truck Shipment - Tariff Pricing" for additional information.
2. Terms of Payment: Payment is due upon shipment or invoice unless agreed in advance and in writing.
3. Upon request generic O&M manuals in PDF locked format, or in printed form in quantity of 3 or less, may be transmitted on or before ship date at no charge. Add \$95.00 net each for printed generic O&M manuals in quantities greater than 3. Project specific manuals in printed or electronic form are subject to additional charges as determined by YCC.
4. Pump duty point must be specified if performance testing is required.
5. Final impeller trim diameter will be determined by YCC
6. All YCC Orders will be manufactured using the most current design standards unless noted otherwise
